# STYLISH SUSTAINABLE SOLUTIONS

Premier Copper Products is a family owned business that offers high quality, affordable products that are individually handcrafted by artisans in our exclusive factory in Mexico. We offer competitive pricing, fast delivery, progressive design features, and environmentally sound copper products and packaging.

We are a Phoenix, Arizona based importer and designer of handmade copper products. We search out artisans of superior talent and technique to produce a unique line of kitchen and bathroom products that are of the highest quality and craftsmanship. Our years of experience in manufacturing assures that the item you choose will meet rigorous quality control standards in addition to the one-of-a-kind beauty and durability expected of a premium, eco-friendly product.

Consistently maintaining a well-stocked on-site inventory means our products ship with little or no lead time. We offer a full range of accessories including drains, tiles, lighting, bathroom accessories, custom products, protective wax, and a specially made silicone caulk that is color matched and non-reactive. By choosing Premier Copper Products, we'll ensure you have all the necessary components to complete your project.

We take great pride in offering a truly affordable and consistent quality product from our eco-friendly packaging to our timeless designs.

# Green Solutions

Green building and furnishing solutions is not just a hot topic, it is an important benchmark in our society's commitment to protect the environment for future generations. Green building is a positive trend in consumer thinking, to which Premier Copper Products embraces fully. We provide eco-friendly solutions by how we craft our products, and extend our commitment to the end consumer by using eco-friendly packaging.

Our copper products will endure for generations. Copper is a uniquely durable metal with an endless ability to regenerate its protective patina. Copper is known for its naturally occurring anti-bacterial and anti-microbial properties. Having these protective properties allows consumers to reduce the need for harsh chemicals that are harmful to themselves and the environment.

Copper is one of the most abundant and valued, recyclable materials on the planet. Our sinks are manufactured using 99.7% pure grade A copper wire that has been reclaimed and recycled into copper blanks. Endlessly recyclable, your copper item will never take up valuable space in a landfill like other stone, concrete, stainless steel or ceramic goods. All Premier Copper Products can continue to be recycled into new products without limit.

We use packing peanuts made from sustainable harvested vegetable starch and recyclable cardboard boxes with inserts made from post consumer products. The bulk of our packaging is compostable and recyclable. You can shop confidently knowing we are truly a REDUCE, REUSE, and RECYCLE company!

# Custom Designs

Having trouble finding the perfect item to fit an existing space? Watch your idea come to life by designing your very own, one-of-a-kind, handmade copper creation. Our talented artisans have the ability to create much more than what is shown in this catalog.

While we specialize in copper products for the home, we also offer products for your business. We can create unique sinks, range hoods, bathtubs, backsplashes, signage, tables, shelving, and much more. We can also create speed rails/racks, drip trays, beer and wine flight vessels, kegerator door panels, accessories and more for your restaurant or bar. The possibilities are endless!

Contact your local dealer, email [customorders@premiercopperproducts.com](mailto:customorders@premiercopperproducts.com), or call us at (877) 251-4486, for more information on how to get started with your custom design today.

**THINK OUTSIDE THE KITCHEN AND BATHROOM.  
 IF YOU CAN DREAM IT, WE'LL FIND A WAY TO CREATE IT.**

## MIRRORS

### TRANSFORM YOUR BATHROOM, FOYER, AND BEYOND WITH THE BEAUTY OF HAMMERED COPPER.

Our handcrafted mirrors match a variety of colors and styles. Mirrors are available in three shapes with different design and finish options.

Each mirror is handmade from industry leading 18 gauge copper material wrapped around sturdy MDF Plywood for a stylish mirror that will last a lifetime.

If you would like a custom shape or size created, begin the custom design process by emailing [customorders@premiercopperproducts.com](mailto:customorders@premiercopperproducts.com).

## PLACING AN ORDER

Email purchase orders with the correct pricing to: [orders@premiercopperproducts.com](mailto:orders@premiercopperproducts.com), or by fax: (623) 580-7324, (*email is preferred*). Orders will not be accepted over the phone. In-stock items will ship out on the same or next business day. *This excludes custom items and pre-drilled overflow bathtubs.*

New orders are processed until two hours before closing. If you have a late or rush order, please call (602) 476-7332. **Rush order requests are not accepted over email and will be accommodated on a case-by-case basis.** If you have NOT received email confirmation that your purchase order has shipped within 24 business hours of submission, it may have not been received. Please call 602-476-7332 to verify your order has been processed.

## SHOWROOMS

For up-to-date price lists and inventory call 602-476-7332, or email [sales@premiercopperproducts.com](mailto:sales@premiercopperproducts.com).

## WHERE TO BUY

To find a showroom or retailer near you, visit [premiercopperproducts.com](http://premiercopperproducts.com) or call 602-476-7332.

## CUSTOM ORDERS

To create a one-of-a-kind design for your home or business, email [customorders@premiercopperproducts.com](mailto:customorders@premiercopperproducts.com) to begin the custom order process.

## OUR PRODUCTS ARE ESPECIALLY EASY TO CARE FOR

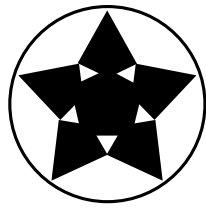

Following these steps, your product will last a lifetime. To keep clean, wash with mild soap, soft sponge, and water. Rinse sinks after each use. Apply an occasional thin coat of Premier Copper Products Bee's Wax Surface Protectant (*page 56*). This natural wax will help to maintain the luster of the copper and will promote better water runoff. We recommend applying this product 1-2 times a month, depending on use. This will help protect the copper surface, without creating a wax buildup, and will dry clear to bring out the true copper color.

## PREVENTING DISCOLORATION

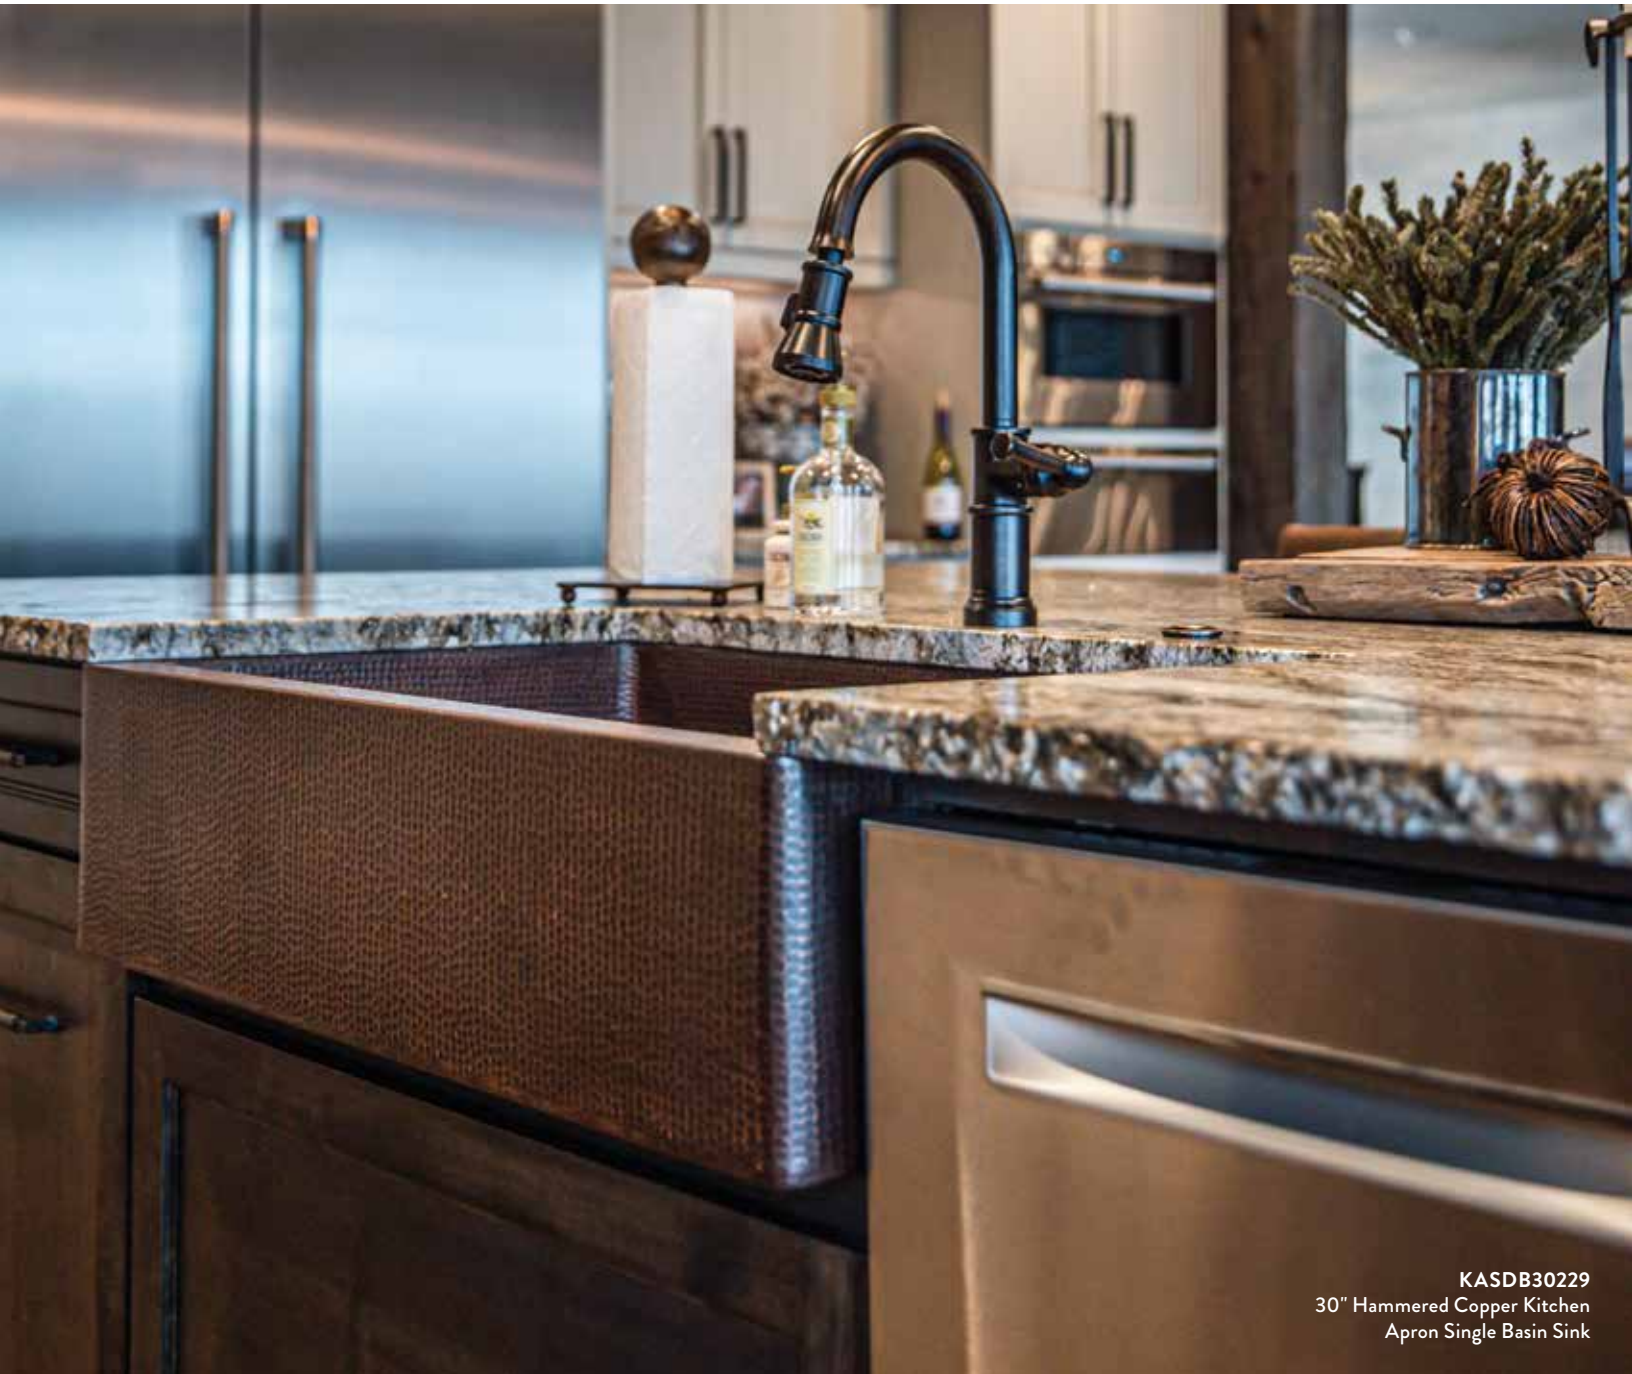

To prevent discoloration or damage to the finish, avoid leaving acidic substances on the copper. Rinse sinks after working with acidic substances. Do not use chemical cleaners, copper cleaner, or abrasive substances as they may remove the patina. Do not clean with vinegar. Should discoloration occur, refrain from using the wax protectant until the patina has regenerated.

## DISCOLORATION AND SCRATCHES

Do not be discouraged, copper has an endless ability to regenerate the patina surface naturally. Avoid waxing the item for a few weeks so water and oxygen can help speed up the patina process. With regular use, copper will regain the patina finish and will once again match the surrounding area.
